MAHMOOD KHAJE NAJAFI

Junior Frontend Developer, ReactJS

PROFILE

I attracted to programming and started to read about it around 2020. Finally, I chose Web Development for my career.
I learned *HTML*, *CSS* and *Vanilla JavaScript* then entered
to *React* World all by self-study with help of courses and documentations. My vision is to dive deeper in Frontend Development specially React; Explore Backend world and become a full stack MERN (MongoDB, Express, React, NodeJS) developer in future.
